## Why a Return to Observing Natural Cycles? 12:60 and 13:20

As an introduction to the 13 Moon Calendar there are 2 frequencies to be aware of - 12:60 is the 'artificial' timing frequency based on measured time i.e.: clocks and the current Gregorian calendar (divides the 13<sup>th</sup> month unequally between 12 months) and 13:20 which observes a repeating natural frequency of 13 galactic tones and 20 solar seals of the Mayan calendar or Tzolkin. 28 days x 13 months = 364 + 1 Day out of Time (365).

It is a 4<sup>th</sup> dimensional synchronic timing frequency and a Spiritual approach to recognizing natural living cycles. If we recognize that the matrix is locked into a program of 'artificial' timing to maintain our enslavement, the programming can be unlocked with a 13 Moon calendar. Welcome to the NOOSPHERE.

#### Sphere 10: **SCIENCE AND TECHNOLOGY**

Brace yourself as this is where the controversy begins. Science and technology is similar to wisdom in that it is applied fact-based knowledge. We are on the verge of a technological apocalypse (revealing) not because of new "discoveries" but rather, as a result of the unsuppression of advanced technologies, including free energy, hoarded by systems of control (governments), simply to perpetuate their perceived control of humanity. Free energy and advanced technologies will liberate humanity from the system of slavery that has been imposed upon us for the last 13 millennia. These technologies will also aid us in our journey to wellness.

#### Sphere 11: **EMPOWERMENT**

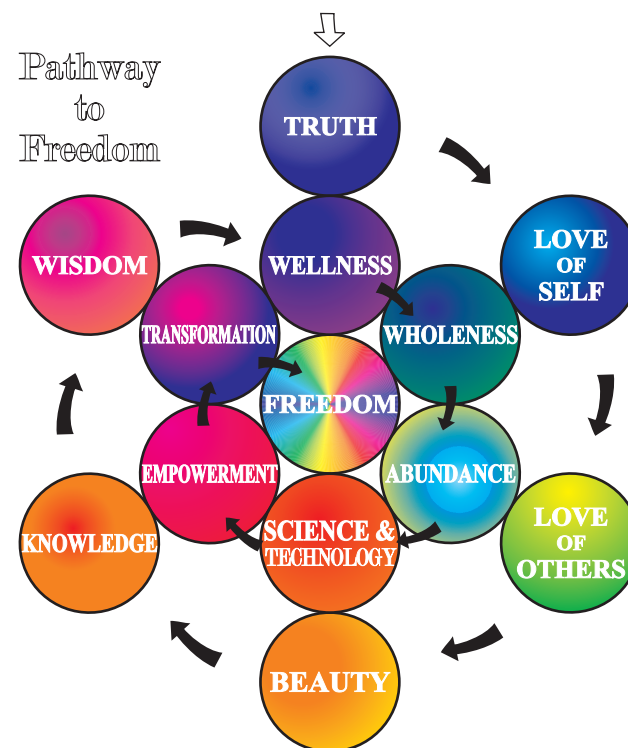

Knowledge of self, love of others, the application of knowledge, and the use of "new" technologies will EMPOWER the individual to exercise their creative potential without constraint. Try to imagine the kind of world that would be the result of 7 billion creators contributing to the whole. The implications are simply staggering and requires comprehension.

#### Sphere 12: **TRANSFORMATION**

This is the natural result of activating the previous 11 spheres. Every aspect of our world will literally be changed overnight. All systems based on the illusion of external power will cease to exist, including governments, nobilities, religions, and military institutions, among others. Those who have been involved in the suppression and extortion of humanity will repent and join us in our evolutionary leap or they must leave this realm, forever. They simply will not be able to exist in the new world.

#### Sphere 13: **FREEDOM**

The 13<sup>th</sup> Sphere is the portal through which we will ascend to a higher octave or reality of experience. True freedom will be experienced by those who have awakened from their slumber and realized that we have been slaves for millennia. This is the shift as we complete the cycle of the 12 Spheres. Embrace change and prepare yourself to enter a new world beyond your imagination! May the energy of TRUTH and LOVE guide us.

**Sphere 1: TRUTH**

YOU ARE TRUTH. You exist. You ARE consciousness. Consciousness is not bound by space or time. Part of the challenge of incarnating into this realm is experiencing amnesia (remember who you are - see Sphere 8). There are also forces at work to deceive and distract us into believing we are less than we are, and yet people from all walks of life are awakening to their true nature. The time has come for each of us to take our power back and bring about real change in our collective experience.

**Sphere 2: LOVE of SELF**

You cannot truly love another unless you first love your "SELF" = SELF worth and SELF respect. To be of service to others is only achieved by service to self (Wholeness - see Sphere 8) first. Enough said.

**Sphere 3: LOVE of OTHERS**

Unconditional love does not mean unconditional boundaries. True Love flows from a place of knowing YOU create your "reality", therefore, every person and/or situation has a purpose, and is all part of the process of ascension/transformation. We therefore draw others into our experience for a reason. If we feel victimized by someone else, perhaps it is because we choose to. Every interaction with another is actually a chance to learn and grow. Be forgiving with healthy boundaries - which means accountability and atonement.

**Sphere 4: BEAUTY**

Once you see the "Big Picture," you can then appreciate the beauty of this experience we call life. This is a shift in perspective that takes us from the role of "victim" to the role of "creator". Self-responsibility and Selfhood becomes the foundation of living in the realm of Beauty.

**Sphere 5: KNOWLEDGE**

Knowledge (Philosophy = love of knowledge) is the armor and weaponry we must equip our "selves" with to navigate through this experience. The world is constantly changing and so must we. Never stop learning.

**Sphere 6: WISDOM**

Wisdom is applied knowledge. Success is preparation met with opportunity. We can charge onto the battlefield trusting the armor and weaponry with which we have equipped our "selves". We can, with absolute confidence, tear down strongholds and create new realities. True wisdom comes with the realization that we cannot change others or the world around us until we first change our "selves". I AM change.

**Sphere 7: WELLNESS**

Wellness (Psychic hygiene/sovereignty) is optimal health in our physical/emotional/spiritual beings. A part of our birthright which has been cleverly stolen. Time has come to take it back. Discern what enters the gated bodytemple and by extension your dwelling temple (home). Remember unconditional love does not mean unconditional boundaries. Embody Selfhood through Spiritual Practice + Shadow Work = psychic hygiene and psychic sovereignty.

**Sphere 8: WHOLENESS**

Wholeness is the result of realizing our connection to everyone and everything on an energetic level and on a level of pure consciousness. We are all fractals or hologram versions of the Source of all existence. We have the ability to embrace our differences yet live in **unity of purpose** to create a world of abundance for ALL. It is remembering who we are: peaceful, powerful Child of Source. Guiltless. Shameless. Curious, creator, aware, motivator, awakened, conscious, conscientious, worthy, accountable, responsible, beautiful. empowered, forgiving with healthy boundaries, knowledgeable, intelligent, enlightenable, lovable, loving, able to say no, able to enjoy solitude, able to enjoy silence.

**Sphere 9: ABUNDANCE**

It is our birthright to experience abundance in ALL areas of our lives, including financial. We have been tricked into believing "lack" or deprivation is a natural part of life. IT IS NOT! We must, however, be willing to let go of things we do not need or things that harm even though we might experience momentary pleasure from them.
